

TP6000 AUTOMATIC STRAPPING MACHINE

A high-volume carton and package strapping machine with fully automatic strap feed and hands-free operation for maximum productivity.

Features include:

- External manual strap tension control
- Activation by foot pedal, console button or ball switch
- Short-feed sensor to prevent strap misfeed
- Reliable head control construction
- Low maintenance mechanism
- Suitable for 8-12mm strap

Technical Specification:

Machine Weight:	220kg
Machine Dimensions:	1430mm (w) x 620mm (d) x 1540mm (h)
Max Package Weight:	100kg
Strap Widths:	9-12mm
Min/Max PP Thickness:	0.55mm – 0.75mm
Min/Max Tension: (Strap Dependent)	10-70kg
Speed/Cycle:	2.6secs
Power Requirement:	240v 50Hz
Power Consumption:	1.2kw
